ABOUT ME:

Full stack developer with 6 months of experience in collaboration with multidisciplinary teams, my development approach is based on React, Python, currently working with Python + Django, additionally I use tools such as HTML, CSS, JavaScript and React. I apply an agile framework with scrum for effective communication skills, and SQL and NoSQL databases, developing high quality websites. I am able to work well under pressure and I am open to new trends. Knowledge of front-end and back-end programming languages.
